Betsy

Several groups from around the world have expressed interest in this developing ARA project. Would you like to propose someone to sit on the advisory committee?

Cheers!

Michael

Dear Colleagues

The Alliance for Risk Assessment (ARA) (<https://tera.org/Alliance%20for%20Risk/index.htm>) is endorsing a collaboration among organizations to explore and possibly resolve the conundrum in human 1/2 life for perfluorooctanote (PFOA), which is reflected in differences in safe doses world-wide of 750-fold (Mikkonen et al., 2020*). This collaboration is anticipated to start in April, 2021 with the selection of an advisory committee who will then conduct a series of virtual and possibly face-to-face meetings, with conclusions later this year. Nominations to this advisory committee are welcome. Toxicology Excellence for Risk Assessment has been designated as the nonprofit organization to support this coalition. Because TERA is a 501c3 nonprofit organization, all donations to this effort are tax deductible.

All interested groups are welcome to contact one of us below for additional details.

Sincerely

Annette Dietz, Portland State University
Michael Dourson, Toxicology Excellence for Risk Assessment
Michael Honeycutt, Texas Commission on Environmental Quality
Matthew McAtee, U.S. Army Public Health Center
Moiz Mumtaz, Agency for Toxic Substance & Disease Registry
Ralph Perona, Neptune & Company, Inc. [representing tribal interests]

I talked with Ed Ohanian this morning regarding the upcoming Alliance for Risk Assessment workshop (February 24 & 25), where our group is presenting an unfunded and preliminary research case study on the half-life of PFOA. Ed mentioned that you might be interested in this work, and so I have taken the liberty to attach it. Additional supporting studies are found at the workshop website: https://tera.org/Alliance%20for%20Risk/ARA_Dose-Response.htm. Kris Thayer's group is also aware of this study and the workshop.

The agenda is also attached. Annie Jarabek is giving the keynote address. Workshop registration is free.

Cheers!

Michael
